The following repositories have been determined to meet qualification standards for long-term management and preservation of archaeological collections. These standards, developed by the National Park Service and published in **36 CFR Part 79**, define minimum capabilities for long-term curatorial services. These definitions include policies and procedures, and appropriate facilities, staffing and experience. In some cases, additional areas or levels of expertise may be needed, depending on the complexity of the task and the nature of the collections involved.
